## ANTIOCH VILLAGE ELECTION

**Independent Ticket Wins Out With a Substantial Majority Over Regulars**

**TOTAL VOTE CAST WAS 371**

The Village election on Tuesday resulted in the total of 371 votes being cast, and evidently the women were more interested in the selection of a village board than were the men, for when the votes were counted it was found that the women voters outnumbered the men by three. The total men's vote was 184 and the total women's vote was 187.

The Independent ticket won out with a substantial majority, their victory being due to the fact that the entire day was spent in hard work by the supporters of that ticket, while the supporters of the People's ticket, which contained the names of the regular primary nominees, put up practically no fight at all.

The exact number of votes each candidate received is given below:

People's Party

### Card Club Makes a Donation to the Red Cross

The Antioch Card club closed their year with a dance at the opera house on Tuesday evening, and as they had the sum of \$23.00 over their expenses, they have agreed to give the same to the Antioch Red Cross.

The President of the Red Cross can get same by calling at the Brook Bank. Total receipts from the dance \$60.00. Total expenses for the dance \$37.00.

### U Boats and Freight Carriers

Some farmers may not understand just what is the significance of ship building to them. They fail to see how they are to be benefited when the money they lend the government by purchasing Liberty bonds is spent for ships that sail the seas they never have seen. Ships today are carrying our farm products to Europe. If there are no ships, the farmers' goods never would reach the market. If German U-boats were dynamiting freight cars instead of ships, the farmers' crops would not even reach the Chicago and Kansas City markets. We must have ships to get our produce to market. Bonds will help build them.

### Just a Notice to the City Dads of Antioch

How do you expect me to help feed the world and win the war when you send the marshal down in the middle of the afternoon and order me to unitch my four horse team and go to Antioch to draw that loaded wagon out of the road.

### Ray Webb Gives Details of Hike and Ben Drury Writes from France

The following letter was recently received by Geo. E. Webb, and was written by his son Ray, who is now at Houston, Texas. Ray, together with "Red" Fields and "Red" Waters entered the service nine months ago the sixteenth of April, and left Rockford for Houston, the first of October. They are all corporals and are all in the same company.

Battle Field of San Jacinto, Thursday P. M., 4 11-18.

Dear Folks:  
Well, we are on our fourth day of the hike and we are camping on the battle field where Gen. Sam Houston fought Santa Ann, the Mexican. We hit here yesterday noon and had a sham battle that lasted for about three or four hours so did not get our dinner until after we had made our camp and that was about 3:30 in the afternoon.

They are not hiking us very hard, only about twelve or fourteen miles each day. We usually make camp about noon and do not move till the next morning. I guess they are going to keep us here for another day and then we will pull out again.

The second day we were out there was an areoplane lit in a field within a hundred yards of camp and I got a picture of him as he was leaving the ground. We have had as many as six over our troops ever since we left Camp Logan.

We are camping now on the banks of the Buffalo Bayou that runs from Galveston to Houston. Everything was very damp and cold last night and still wet when we got up this morning.

I don't think I told you what each man has to carry on his back during this hike. My pack contains—guy, shelter-half, 5 pins, tent pole, one blanket, rope, suit of underwear, 2 pairs of socks, pair shoe laces, towel, comb, tooth brush and paste, soap, razor, shaving cream, foot powder, shaving brush, tablet, book, housewife, bacon, 2 boxes of hard tack, coffee, sugar, salt and pepper. Then in our belts we have first aid packets, bayonet, canteen full of water, and wire cutters. Some carry a shovel or a pick instead of the wire cutters. Besides these things I have my kodak and rifle. You do not wonder why the troops do not make twenty-five or thirty miles per day. Now, do you?

I saw by the paper that a fellow by the name of Knigge of Area had bought a farm on the edge of Antioch. What place did he buy?

I have the swellest bed I have slept on in quite a while; the fellow who I am sleeping with got hold of some Spanish moss and covered the floor, then we spread our poncho and blankets over it and it makes a nice soft place to sleep.

I am in charge of quarters this week so I do not have to go out and drill with the rest of them, all I have to do is to look after the things left in the street, will have time to catch up on some of my correspondence. We have the mail brought out to us every day from Logan, and it is my duty to give it out.

The country near here is a great deal like old Oklahoma, just as flat as it can be, with only a few trees on one side of the camp.

Some of the fellows went to town last night and bought all the stores out of tobacco and stuff to eat. I guess they never had such a crowd in town at one time before. It is a small place with only two stores and one saloon so their supply lasted only about an hour.

Will close now and try and get this mailed before the company gets back. With love,

Ray.  
Corp. Raymond L. Webb, Co. 'C' 131st Inf., Camp Logan, Houston, Texas.

A letter received by Miss Bertha LaPlant from Ben Drury in France.

Somewhere in France, March 17, 1918.

Dear Friends:  
Received your most welcome letter today and was glad to hear from you. I have been fine and dandy this winter. The weather has been just fine, the flowers are in bloom and the butterflies are flying in sunny France, but still we can see snow in some places.

I am eating three times a day and working hard. The harder we work the sooner it will be over.

I think I will bring a French girl back with me, some class to them if they would leave off the wooden shoes and they still drive oxen.

Well, this is all I can write you this time, but more later. Goodbye with love to all. I am as ever your friend, Ben C. Drury. Co. 'C' 503 Engineers, Service Batt. A. E. F. France vis New York.

## Liberty Loan Drive at Antioch, Saturday at 3:15--Fort Sheridan Band--Speakers

**IT MUST BE KEPT ALIGHT**

Upon America devolves the sacred duty of keeping alight the torch of Liberty and upholding justice and democracy throughout the world. Let us not falter or count the cost, for in the freedom of the world lies our only safety, and the preservation of our American liberties and institutions.

**Let Us Invest To the Limit in Liberty Bonds**

**Buy Liberty Bonds, if the Kaiser wins, what's your money worth**

**Lend our lads a hand, buy all the Bonds you can**

Lake County's quota of the Liberty Loan is \$2,415,050 and in order that we may not fall short of that amount a gigantic Liberty Loan drive has been planned to include the entire county, on Saturday next (weather permitting.) An auto parade is scheduled to leave Waukegan at 7:45 a. m., and after picking up a military band of thirty-five pieces at Fort Sheridan will visit every town in the county. Good speakers will explain our country's need and fourteen boys from Camp Grant will exemplify fourteen living reasons why we should buy Liberty Bonds.

The itinerary is as follows:  
7:45 a. m.—Leave Waukegan.  
8:30 a. m.—Arrive at Fort Sheridan.  
9:00 a. m.—Arrive at Highland Park.  
10:15 a. m.—Arrive at Lake Forest.  
11:30 a. m.—Arrive at Libertyville.  
Dinner.  
1:30 p. m.—Arrive at Grayslake.  
3:15 p. m.—Arrive at Antioch.  
5:15 p. m.—Arrive at Zion City.  
6:00 p. m.—Arrive at Waukegan.  
Supper.  
7:30 p. m.—Rally and March.  
8:15 p. m.—Assemble at Armory.

The Liberty Bond sales committee have so far succeeded in selling \$20,000 worth of the bonds. This leaves \$40,000 worth yet to raise before May 6. Here is a chance for everyone to help Uncle Sam, he wants to borrow. Don't be a slacker. Don't refuse to lend.

## SPECIAL NEWS

Every patriotic citizen of Antioch is requested to congregate on Main street Saturday afternoon of this week to meet the Liberty Loan auto parade that is making a tour of the county on that day. They bring with them fourteen living reasons why we should invest in Liberty bonds, and will also entertain us with a 32-piece military band and good speakers.

In order that there may be no tire-some waiting, arrangements have been made with the committee at Grayslake to phone the Antioch committee when the parade leaves Grayslake. When this word arrives the boy scouts, under the direction of Rev. Pollock will then notify the entire village by loudly ringing the bell at the grade school, the Catholic church bell and the M. E. church bell. When you hear the bells calling to you Saturday afternoon, come to Main street and be sure that it will not be long before the visitors and entertainers will be here. And don't forget to hang out a flag on that day. Let Antioch live up to its reputation of patriotism and offer a fitting welcome to the strangers.

### Lake County Chapter Of the Red Cross Monthly Report

Let every loyal woman remember that "your country needs you" every Friday afternoon at the Red Cross rooms. Let us not permit any other line of work to interfere with this patriotic service. Surely this is no time to slack in our efforts. Show your interest by coming to the rooms even though sometimes it be impossible to remain to work. Do not leave the work for a few to carry on. Remember there is enthusiasm in numbers and we need you—your country needs you. Come and help us.

## CZERNIN QUILTS; RULER'S TRIP OFF

Alsace Letter Shakes Austrian  
Cabinet and Causes Resig-  
nation of Leader.

### AFFAIR DECLARED AT END

Foreign Minister Resigns Upon Hear-  
ing of Missive Which Official  
Statement Says is a Forgery  
—Deep Interest at Capitol.

Amsterdam, April 17.—Count Czernin, the Austro-Hungarian foreign minister, according to a dispatch from Vienna, has resigned. Emperor Charles accepted the resignation and intrusted to Count Czernin the conduct of foreign affairs until his successor is appointed.

Count Czernin did not know of Emperor Charles' letter to Prince Sixtus when he made the statement that France had initiated the conversations with Austria, according to a Vienna dispatch to the Lokal Anzeiger of Berlin. On learning of the letter, he resigned, but yielded to a request that he remain in office until the conclusion of the peace agreement with Roumania.

Emperor Charles, according to a Vienna dispatch dated Saturday to the Berliner Tageblatt, has canceled a visit he intended to make to Budapest. Important conferences on Austro-Hungarian foreign and internal policies were to have been held. Count Czernin, Doctor von Seydler, Austrian premier; General Arz von Straussenberg, chief of the general staff, and other officials were to have been present.

An official statement received here on Monday from Vienna asserts that the latest statements of the French premier, M. Clemenceau, concerning the conversations between Austria and France regarding the possibility of opening peace negotiations do not alter the situation as regards the majority of Count Czernin's declarations.

The Austrian foreign ministry, the statement says, is unable to ascertain who was responsible for delivering to the French what is said to have been a forged letter, substituted for the letter which was to have been delivered. Neither Prince Sixtus, whose character is beyond suspicion, nor anyone else is accused of falsification, continues the statement, which concludes: "The affair is herewith declared to be at an end."

Washington, April 17.—No official word of the reported resignation of Count Czernin had been received on Monday by the government, but all officials were deeply interested in the report, and it was recognized that the development undoubtedly was the outgrowth of Czernin's declaration that France had been ready to talk peace.

Amsterdam, April 17.—Thousands of people gathered in the streets of Prague, capital of Bohemia, on Saturday, denouncing the Germans and cheered President Wilson, says a dispatch from that city to the Lokal Anzeiger of Berlin.

## FRENCH IMPOSTOR DAZZLES GOTHAM

Almost Succeeds in Getting Huge  
Loan From New York  
Bankers.

### BLOCKED BY LANSING

Former Telephone Worker at \$15 a  
Week Bought Brilliant Uniforms  
and Had Merry Time Fooling  
Gullible New Yorkers.

New York.—Chance alone caused the castle of the bogus "Marquis Edmond Rousselot di Castillon" to topple over, after he had captivated the beauties of New York city with his brilliant uniforms, secured loans from wealthy men and contracted bills at the Waldorf-Astoria and other famous hostilities amounting to thousands of dollars. His success at issuing bogus letters, decorated with the coats of arms of imaginary estates in France and Spain, and intimate correspondence with the king of Spain, all his own handwriting, gained him admission, not only to the leading homes of Americans in the metropolis, but entrance to military clubs and organizations.

Went Step Too Far.  
Emboldened by his success, which included masquerading in the uniforms of various French regiments, all made to his order by New York tailors, the "marquis" conceived the idea of conducting negotiations between New York bankers and Spanish authorities, by which Spain was to enter the war on the side of the allies, and was succeeding fairly well when the state department decided to take a hand.

When the subject of the loan was broached to the bank by Rousselot, who had been introduced properly by W. E. D. Stokes of New York city, the bank communicated immediately with Secretary Lansing, who opposed the

Explained That the Loan Was to Be  
Made to King Alfonso.

loan to the Spanish government through an individual, and suggested that it be taken up through the regular government channels.

Rousselot objected to this method of procedure, explaining that the loan was to be made personally to King Alfonso, and it was because of this secret arrangement he could promise that Spain was to join the entente allies. The negotiations for the loan still were under way when the Frenchman was arrested on the charge of falsely representing himself as "Count Rousselot," a French diplomat here on a secret mission.

### Cook by Trade.

Rousselot, a former telephone workman at \$15 a week, accidentally met a wealthy New York woman and to her he confided the story that he was of noble birth, although his occupation in France was that of a cook. She advanced him stocks on which he realized \$10,000, hired an expensive suite of rooms at a leading hotel, ordered brilliant uniforms, and in due time secured entrance to select circles. A half dozen expensive automobiles were constantly at his command, as well as fancy riding horses. He succeeded in convincing even government officials that he was a French officer here on a great secret mission, and obtained passes to shipyards and war vessels.

He made ardent love to actresses and hetteresses and when his rooms were searched, dozens of photographs, bearing endearing bits of sentiment, were found. Following his arrest the "marquis" said he merely wanted to see how far he could go and how badly he could fool the people of New York.

### Grocer Was a Pickpocket.

London.—Here's a story robbed of its peace-time prominence by the war. In Middlesex court last week Henry Phillips, a grocer, was arrested on a charge of picking pockets. It developed that he had been convicted 23 times previously and was an absentee from the army. He was sent to prison for three years.

## RELIABLE PRESCRIPTION FOR THE KIDNEYS

For many years druggists have watched with much interest the remarkable record maintained by Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder medicine.

It is a physician's prescription. Swamp-Root is a strengthening medicine. It helps the kidneys, liver and bladder do the work nature intended they should do.  
Swamp-Root has stood the test of years. It is sold by all druggists on its merit and it should help you. No other kidney medicine has so many friends.  
Be sure to get Swamp-Root and start treatment at once.  
However, if you wish first to test this great preparation, send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention this paper.—Adv.

## YOU NEED NOT SUFFER WITH BACKACHE AND RHEUMATISM

For centuries GOLD MEDAL Haarlem Oil has been a standard household remedy for kidney, liver, bladder and stomach trouble, and all diseases connected with the urinary organs. The kidneys and bladder are the most important organs of the body. They are the filters, the purifiers of your blood. If the poisons which enter your system through the blood and stomach are not entirely thrown out by the kidneys and bladder you are doomed. Weariness, sleeplessness, nervousness, depression, backache, stomach trouble, headache, pain in joints, and lower abdomen, gallstones, gravel, difficulty when urinating, cloudy and bloody urine, rheumatism, sciatica, lumbago, all warn you to look after your kidneys and bladder. GOLD MEDAL Haarlem Oil Capsules are what you need.

They are not a "patent medicine" nor a "new discovery." For 200 years they have been a standard household remedy. They are the pure, original imported Haarlem Oil your great-grandmother used, and are perfectly harmless. The healing, soothing oil soaks into the cells and lining of the kidneys and through the bladder, driving out the poisonous germs. New life, fresh strength and health will come as you continue this treatment. When completely restored to your usual vigor, continue taking a capsule or two each day. They will keep you in condition and prevent a return of the disease.

Do not delay a minute. Delays are especially dangerous in kidney and bladder trouble. All reliable druggists sell GOLD MEDAL Haarlem Oil Capsules. They will refund the money if not as represented. In three sizes, sealed packages. Ask for the original imported GOLD MEDAL. Accept no substitutes.

## Meat is as Necessary as Steel and Ships

Food is the first essential of the fighting forces.

The American farmer and the packer have met every war emergency, and have promptly furnished an adequate supply of wholesome meat.

No other industry can claim a better record of war time efficiency.

Swift & Company has shipped to the United States Government and the Allied Nations,

Over 12,000,000 Pounds (400 carloads) per week, of beef, pork, and lard, since January 1, 1918.

In one week recently we shipped 24,000,000 Pounds (800 carloads) and the demand is increasing.

Our profits are limited by the Food Administration to 9 per cent on investment in the meat departments. (This means about 2 cents on each dollar of sales.) No profit is guaranteed.

We are co-operating with the Government to the best of our ability.

# "Keep the Home Fires Burning"

Tonight there will be American boys in lonely listening posts far out in the desolation of No Man's Land, American boys in the darkness and the mud and cold of the trenches under the ceaseless thunder of guns and the scream of shells, American boys tramping along the pitch-black, shell-torn roads.

Through the long, dreary hours, as they wait and watch in the dark, while dangers lurk on every hand, their thoughts turn to the homes they have left behind, homes on distant farms, in scattered villages, in great cities, and they see in imagination the pleasant home lights shining out into the night.

## *They Are Fighting to Keep Those Home Fires Burning*

You, back here in the peace and safety of the homes they love, can help in the bitter struggle that our boys must face tonight, and tomorrow night, and every day, and every night, until the final VICTORY is won. You, too, must work to keep the home fires burning—for our sons in France.

They need guns and more guns, shells and more shells,

they need tanks and transports and airplanes, good food and warm clothes and medicines and hospital supplies—an ever increasing abundance of all the vital materials of war, if they are to drive the ruthless German invaders back within their own borders, and establish for all time the sacredness of American liberty and the safety of America's homes—their homes, our homes.

For these lads that are fighting and dying for you—do your share to send them to VICTORY. Invest today in Bonds of the Third Liberty Loan—ALL the bonds you can. Keep the home fires burning.

## WOMAN WORKS 15 HOURS A DAY

Marvelous Story of Woman's Change from Weakness to Strength by Taking Druggist's Advice.

Peru, Ind.—"I suffered from a displacement with backache and dragging down pains so badly that at times I could not be on my feet and it did not seem as though I could stand it. I tried different medicines without any benefit and several doctors told me nothing but an operation would do me any good. My druggist told me of Lydia E. Pinkham's Vegetable Compound. I took it with the result that I am now well and strong. I got up in the morning at four o'clock, do my housework, then go to factory and work all day, come home and get supper and feel good. I don't know how many of my friends I have told what Lydia E. Pinkham's Vegetable Compound has done for me."—Mrs. ANNA METTERIANO, 36 West 10th St., Peru, Ind.

Women who suffer from any such ailments should not fail to try this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound.

## U. S. MEN KILL 100 GERMANS

Enemy's Casualties Estimated at Between 300 and 400 Near Apremont Forest.

## TWO NEW ATTACKS FAIL

Twelve of the 38 Prisoners Captured by Yankees Northwest of Toul on Friday Die of Wounds—Machine Guns Taken.

With the American Army in France, April 16.—Proceeding by an intense bombardment of high explosives and poison gas shells, picked troops from four German companies hurled themselves against the American positions on the right bank of the Meuse north of St. Mihiel, but were completely repulsed after terrific hand-to-hand fighting. The Americans captured some prisoners. The German losses already counted are thirty-four dead and ten wounded, who were in the American trenches, and thirty dead in No Man's Land.

With the American army in France, April 15.—After another night of terrific artillery fire and a bombardment with gas shells, the Germans continued their efforts to drive through to the third line of the American positions near Apremont forest, northwest of Toul.

They made two attacks, both of which failed. The enemy's casualties in the four days' fighting are estimated at between 300 and 400.

Of this number more than 100 were killed. Although the enemy wasted fully a half of his specially trained shock-troop battalion of 800 men, he was unable to penetrate the American lines, which remained unchanged.

Of the 38 prisoners taken by American troops in the fighting on Friday northwest of Toul, during which two German attacks in force were repulsed with heavy casualties to the enemy, 12 have since died of their wounds.

The American troops also captured two German machine guns, besides a quantity of small arms, grenades and other war material.

## SENATOR W. J. STONE IS DEAD

Chairman of Foreign Relations Committee Succumbs at Washington Following Stroke of Paralysis.

Washington, April 16.—Senator William J. Stone of Missouri, chairman of the senate foreign relations committee and for many years prominent among Democratic leaders, died here on Sunday. He had suffered a stroke of paralysis last Wednesday. Senator Stone was in public life 45 years. It was in connection with the bill proposing the arming of American merchant ships that he took sharp issue with President Wilson. His opposition to the declaration of war on Germany was also pronounced, and he declined to take charge of the war resolution. He believed that American participation should be avoided if possible, but when the die was cast for war he changed over night. He took his place with the supporters of war measures and consistently maintained that attitude. He held it incumbent upon him to stand with his country regardless of his own views. He was born in Kentucky May 7, 1848.

## EX-SOLDIER CHIEF OF MOB

Collinsville (Ill.) Man Declares He Was Leader of Gang That Lynched R. P. Prager.

Collinsville, Ill., April 12.—Joseph Riegel, twenty-eight years old, a Collinsville miner and formerly in the United States army, told a coroner's jury here on Wednesday that he was the leader of the mob which last Friday morning hanged Robert P. Prager, an enemy alien. He described in detail the events leading up to the tragedy, and during the course of his confession implicated another man in the leadership. He said that he and this individual were the men who found Prager hiding in the basement of the city hall and dragged him out.

## AMERICANS WHIP FOE ARREST 200 ALIENS

U. S. TROOPS BEAT OFF BIG ATTACK BY ENEMY.

Three Days of Fierce Bombardment Precedes the Onslaught Which Is Stopped.

With the American Army in France, April 13.—The Germans attempted an attack against the American positions northwest of Toul just before sunrise and were completely repulsed. Two German prisoners said that the enemy planned the attack with a force of 800 men, but that it was stopped in its full strength by the effective fire of the American artillery. The Americans lost no prisoners. One of the German prisoners died later of wounds.

American troops on a certain sector repulsed the heaviest German attack yet made on an American force. Brilliant work by American gunners dispersed the German infantry before they reached the wire entanglements and those of the enemy who got into the wire were accounted for with machine gun and rifle fire.

The German attack came after a violent artillery bombardment of three days. A large number of the enemy are believed to have been killed or wounded during the attack, which continued for nearly two hours.

For 72 hours before their effort the Germans had been firing an increasing number of shells at the American positions and making extensive use of gas shells. At noon the day before the enemy began a harassing fire against one of the American strong points and kept it up throughout the night, dropping hundreds of shells of all calibers on both front and rear positions. The American artillery replied vigorously, the men in some batteries working with their gas masks on for two or three hours at a stretch.

About five o'clock in the morning German infantrymen in the front line signaled their batteries for a barrage and started for the American front line. The American gunners laid a counter-barrage almost immediately.

As soon as the American barrage lifted American infantrymen climbed from their shelters and attacked the enemy with heavy machine gun and rifle fire, driving back those who had not been dispersed by the artillery fire.

## 293 ON MISSING U. S. SHIP

Collier Cyclops, Long Overdue at Atlantic Port—Consul and 56 Naval Enlisted Men on Board.

Washington, April 16.—The big American naval collier Cyclops, carrying 57 passengers, 15 officers and 221 men in her crew, has been overdue at an Atlantic port since March 13. The navy department announced on Sunday that she was last reported at a West Indies island March 4. The vessel was bringing a cargo of manganese from Brazil.

A. L. Moreau Gottschalk, United States consul general at Rio de Janeiro, was the only civilian among the passengers, the others being two naval lieutenants and 64 naval enlisted men returning to the United States.

The Cyclops was commanded by Lieutenant Commander G. W. Worley, United States naval reserve force. A thorough search of the course which she would have followed in coming to port has been made and continues, it was announced. The official announcement by the navy does not give the ship up for lost, but merely says "the navy department feels extremely anxious as to her safety."

## U. S. MEN REGAIN HILL FROM HINDS

Americans in Counter-Attack Capture Observation Post Northwest of Toul.

## FIGHTING LASTS ALL DAY

Yankees Repulse Two Attacks and Battle Is Still On—Enemy Intending to Penetrate to Third Line in Wednesday's Raid.

With the American Army in France, April 15.—After repulsing two German attacks on the American positions northwest of Toul, American troops on Friday counter-attacked and recaptured an observation hill.

The American troops battled with the Germans all day, infantry and artillery participating.

At a late hour the fighting was continuing.

In the raid carried out by the Germans on Wednesday against the Americans northwest of Toul the enemy intended to penetrate to the third line positions, according to information obtained from a prisoner. This is corroborated by material found on dead Germans. The enemy carried wire, dynamite, trenching tools and other implements for organizing the positions.

The Americans knew in advance of the proposed attack through information obtained a day or two previously from prisoners captured by the French on an adjacent sector.

The attack was made by a special battalion of 800 shock troops, who had rehearsed the operation for two or three weeks behind the lines.

As soon as the German barrage began the American batteries, without waiting for the rocket signal, laid down a counter-barrage, with the result that less than 200 of the enemy succeeded in climbing out of their trenches and advancing toward the American line.

The German officers sent the men right through the barrage, but only two succeeded in reaching the front line. Both of these were taken prisoner, one of them dying a short time afterward from wounds.

When the German barrage started the American outposts moved into the first line, with other infantrymen and machine gunners, they waited for the advancing enemy.

The Americans poured a deadly fire into the raiders, then climbed out of the trenches and engaged with grenades and in hand-to-hand fighting the few Germans who were able to cross No Man's Land.

The American infantrymen drove the enemy back to his own lines and, protected by machine-gun and automatic fire, dragged the German dead back to the American trenches for identification.

## U. S. REPLIES TO HOLLAND

Ship Seizure Made Necessary by Enemy's Coercion, Says Lansing—America's Policy Is Friendly.

Washington, April 15.—America's reply to the recent statement of the Netherlands government bitterly protesting against and denouncing the action of the United States in taking over Dutch ships in its ports, was made public in the form of a memorandum by Secretary Lansing, a copy of which has been sent to the Netherlands legation.

Pointing out that the Netherlands government itself does not question the legality of the act, Mr. Lansing devotes himself to a demonstration that it was an act of necessity resulting from Germany's menacing attitude which prevented Holland from fulfilling her engagements, and that instead of an injustice the step results in real benefit to the Dutch ship owners and people.

## SEDITION BILL IS PASSED

Senate Enacts Measure Without Roll Call—Had Already Passed the House.

Washington, April 12.—With numerous modifications, the senate, without a roll call, passed the sedition bill designed ostensibly to arm the department of justice with more drastic authority in rounding up spies and disloyalists. The measure has already passed the house.

## SENATE FOR HIGHER WHEAT

London, April 15.—The Turkish and German forces in Palestine on Wednesday opened an offensive attacking the British front near the coast, the war office announced officially on Friday afternoon.

## Patrol Boat Beached

Washington, April 15.—A small naval patrol boat was driven aground in home waters by yesterday's storm, the navy department announced. Efforts to refloat it are in progress. No lives were lost.

## NERVES GAVE OUT

Serious Kidney Trouble Had Made Life Miserable, But Doan's Removed All the Trouble. Hasn't Suffered Since.

"I had such severe pains in my back," says Mrs. Albert Akroyd, 804 W. Indiana Avenue, Philadelphia, Pa., "that they almost doubled me up. Many a day I could not do my housework and at every move it seemed as if my back would break in two. My feet and ankles swelled until I had to wear large-sized slippers and sometimes I couldn't stand up."

"I had dizzy spells and dreadful headaches and fiery flashes passed before my eyes. And a heavy weight been resting on my head, the pain could not have been more distressing. The least noise startled me, I was so nervous, I couldn't control the kidney secretions and the pain in passage was awful."

"I began to look as though my case was beyond the reach of medicine until I used Doan's Kidney Pills. The first box benefited me and four boxes cured all the troubles. I have had no further cause for complaint."

Sworn to before me, Thos. H. Walters, Notary Public.

## She Knew What She Meant

Spring is the time women plan new dresses. They plan new dresses at other times of the year, of course, but they do an unusual lot of planning in the spring.

A certain worthy Washington woman, I am told, was getting some new spring dresses for her daughter. We will call her Mrs. Smith. She is a most worthy lady, but not given to dictionary research. She ought to have looked up the word "pendant."

The dressmaker asked her how she wanted the neck of her daughter's dresses cut.

"Does you want them 'V-neck' or round?" asked the dressmaker.

"Make them V, make them V," replied Mrs. Smith. "Her father is going to buy her a pendulum."—Washington Star.

## No Longer Obliges

"This druggist seems to be an affable fellow. Why do you dislike him?"  
"He doesn't uphold the fine old traditions of drug stores."

## BRITISH REPULSE BIG ATTACKS ON FLANDERS FRONT

Haig's Men Retire From Neuve Eglise—Terrific Fight for Town Continues.

## ENGLISH TROOPS REPULSE 7 ATTACKS NEAR MERVILLE

German Penetration Positions South of Neuve Eglise, But Are Driven Out by Counter-Attack—French Win in Hanged Sector—Entente Armies Continue to Hold Line Intact.

London, April 16.—The British have repulsed seven attacks by the Germans on the Neuve Eglise sector, against which the British have launched more than ten attacks.

Southwest of Baillieu the Germans have penetrated the British positions, but were driven out by a counter-attack.

Baillieu and Wulverghem were the central points of the heavy fighting between British and Germans in Flanders, according to the report from Field Marshal Haig's headquarters. Seven attacks by the Germans in the Neuve Eglise sector on the northern battle front have been repulsed by the British, who inflicted heavy losses on the enemy, it is announced officially.

**Battle Continues to Rage.**

With the British Army in France, April 16.—The battle about Neuve Eglise near the Belgian border, which has been retaken by the Germans, continues to rage with the same intensity as it has marked it for days, and the British are pounding the Germans hard.

Another assault on Baillieu, four miles west of Neuve Eglise, is beginning.

**British Line Strongly Held.**

The latest reports show that the British line was being strongly held as a whole in this northern zone, and in some instances had been considerably improved by counter-attacks.

The British followed up their success of Saturday when they pushed the Germans back from Robecq, on the Clarence river. Local counter-attacks delivered on the German positions 3,000 yards to the east of this town were completely successful and the enemy again was forced to fall back somewhat.

**Most Sanguinary Battle.**

The British in the course of the afternoon also pushed out several posts north of the canal between the Lave and Clarence rivers.

These operations indicate that the defense of the entente allied troops has stiffened.

The battle which has been raging about Neuve Eglise has been one of the most sanguinary since the German offensive began.

**French Win in Hanged Sector.**

Paris, April 16.—The French official report says: "In the region of Hanged the French carried out a local operation with complete success and took 100 prisoners. Since April 12 we have taken 150 prisoners in this sector."

"Between Montdidier and Noyon and in the Champagne, south of Mont Tatu, we carried out several raids and brought back prisoners. A German effort north of the Chemin-des-Dames, southeast of Corbeny, was without success."

**Huns Claim Advantage.**

Berlin, April 16.—The German official report says: "On the Lys battlefield hand-to-hand fighting frequently developed."

"Southwest of Neuve Eglise, as well as between Baillieu and Morris, English machine-gun nests were cleared and the Germans made prisoner."

Enemy counter-attacks launched from Baillieu northwest of Bethune broke down with heavy losses.

"On the battlefields on both sides of the Somme the artillery duels remained in moderate limits, the weather being rainy."

"There were some engagements on the Lys-Verghem battlefield, and the entente forces northeast of Wulverghem taken by storm."

**But Repulse Attacks.**

London, April 15.—The Germans have made several attacks against the British in Flanders.

After Sunday's heavy fighting, which ended during the evening, the British were reported intact along all of the Lys battle front, the war still announced.

Fighting resumed on the northern battle front during the night near Neuve Eglise and the engagement in this sector was continued by the launched new enemy attacks in the Neuve Eglise sector.

Early in the night the fourth attack was launched upon Neuve Eglise and was repulsed.

French Huns Lines. Paris, April 15.—"The activity of the artillery somewhat lively between Neuve Eglise and Baillieu."

**BRITISH IN, COME ACROSS!**

Chicago Rectory Mission Issues Call to Red-Blooded Nationals to Help Top Huns.

Chicago, April 16.—The following call to the throughout the Western division and more active aid to volunteer agent at offices of the British-Canada recruiting mission was issued by J. A. Wallace Owen, office manager, hearing on the need of the British forces in Flanders.

Montdidier and Noyon. French reconnoitering parties operating in this region brought in prisoners.

"North of St. Mihiel and in Lorraine, in the region of Embervill and Bures, the French penetrated the German lines and took half a score of prisoners."

"The French repulsed tentative raids by the Germans north of Hill 304 (Verdun front), in the region of St. Mihiel, in the Woevre and at Col du Bonhomme."

**Huns Capture Merville.**

London, April 15.—The Germans captured Merville on Thursday it was announced officially on Friday. Heavy fighting is continuing in the neighborhood of Merville and Neuf Berquin.

Attacking in the neighborhood of Ploegstreet, the Germans pressed back the British to the vicinity of Neuve Eglise.

North of Festubert the British regained ground by a counter-attack. On the front between Loise and the Lave river German attacks were repulsed. On the remainder of the northern battle front there is little change.

German troops made a determined attack along the Messines ridge and succeeded in gaining some ground, says a Reuter dispatch from British army headquarters in France and Belgium, but the British once again drove them out by a counter-attack early in the morning.

Three attacks, the correspondent says, launched in great waves against Villa Chappelle, were repulsed with immense losses to the Germans. The ground was strewn with their bodies.

Having pushed back the British positions on a front of twenty-five miles, north and south of Armentieres, to an average depth of a little more than two miles, the Germans are struggling desperately to increase their gains. The brilliant defense of Field Marshal Haig, however, is beginning to tell and the enemy's advance has slowed up greatly, although the German attacks have not diminished in intensity, especially on the north and in the center.

Messines ridge and Wytchete are the vital points on the battlefield and the Germans in two days have not been able to reach the crest of the hills.

**"Fight to the End"—Haig.**

Field Marshal Sir Douglas Haig, in a special order of the day addressed to "all ranks of the British army in France and Flanders," says:

"Three weeks ago today the enemy began his terrific attacks against us on a 50-mile front. His objects are to separate us from the French, to take the channel ports and to destroy the British army."

"In spite of throwing already 100 divisions into the battle and enduring the most reckless sacrifice of human life, he has yet made little progress toward his goals."

"We owe this to the determined fighting and self-sacrifice of our troops. Words fail me to express the admiration which I feel for the splendid resistance offered by all ranks of our army under the most trying circumstances."

"Many among us now are tired. To those I would say that victory will belong to the side which holds out the longest. The French army is moving rapidly and in great force to our support. There is no other course open to us but to fight it out."

"Every position must be held to the last man. There must be no retirement. With our backs to the wall and believing in the justice of our cause, each one of us must fight to the end."

"The safety of our homes and the freedom of mankind depend alike upon the conduct of each one of us at this critical moment."

**Berlin Reports Progress.**

Berlin, April 13.—"Our victorious troops," says the official report from headquarters, "are progressing through the wide Lys plain, between Armentieres and Merville."

**British Lose Armentieres.**

With the British Army in France and Belgium, April 12.—The fighting continues north of Armentieres with the British still holding Messines ridge and Wytchete, which changed hands several times.

The British have withdrawn from Armentieres on the northern battle front, the war office announces. The town is reported to be reeking with gas.

**British Smash Attack at Hollebeke.**

London, April 12.—The Germans launched a formidable attack against the Belgian town of Hollebeke, says a Reuter dispatch from British headquarters. They came forward in massed waves, which were completely repulsed with terrible execution.

**Berlin Claims 10,000 Prisoners.**

Berlin, April 12.—The official communication issued from general headquarters says the battle near Armentieres is taking a further favorable course and that the Germans have penetrated into the suburbs of the town.

South of Estaires the Lave has been captured at some points. The prisoners captured now total 10,000, including a Portuguese general.

And Pleadry, as set out in Field Marshal Sir Douglas Haig's address to the army. "With Britishers fighting with their backs to the wall the Huns will be halted, but the need and the call is for more men—every possible man."

The quickest route for red-blooded men to reach a place in the line is through the Canadian and British organizations. To volunteer to fight for the freedom of mankind is a man's greatest privilege. There are thousands and thousands of men who can and will go."

## BUY LIBERTY BONDS

Uncle Sam's Bank Is the Safest in Entire World.

You Could Not Place Your Money to Better Advantage, at Same Time Helping the Greatest Cause of Humanity.

(By BOOTH TARKINGTON.)

When we intrust our savings to a bank, we like to know that it's a sound bank. We feel safe then to leave our money in charge of that bank and its officers. They will use it in various ways which seem good to them, but we will get it all back, if the bank is sound. Yet no bank in the United States of America can be as sound as the United States itself. Therefore, when the United States government turns banker, the safest place for our money to be put is in the hands of this government. Anybody can see that, without bothering to look twice. Uncle Sam himself will take care of our money, and we'll get it back. We know that. His word is so good that we can get the money back whenever we need it, because his bonds will sell, any time, for just about what we pay for them. A few years hence, of course, they will sell for more than we pay for them.

During the time that we leave our money with Uncle Sam—what we call the Liberty Loan—he pays us interest. Well, I've had a higher per cent than he pays—not for a loan, because I had to pay taxes that reduced the per cent to 3 1/2—but on investments. Once I made an investment that paid 10 per cent, but it only paid it once, and then the fellow who talked me into it left town without telling anybody good-by. I've found, since then, that I can't get much better than Uncle Sam's rate in the long run. When I think I can, usually the factory has to have new boilers, after my first dividend comes in, or the ore "isn't" quite the quality we had reason to expect, and I begin the long squirm to get out with something reasonably near what I put in. No; nowadays I think the government rate is about all I'm going to get from any investment which I place with regard to the investment's margin of safety. Therefore I get all I can of Uncle Sam's Liberty bonds because they are today, of all the possible investments in the whole world, absolutely the safest. Nobody except Uncle Sam will or can give us his rate and the same absolute certainty that we'll get our interest paid promptly and the principal when it is due.

That's the selfish side of it; we can't do better with the money for our selfish selves. The other side of it is that Uncle Sam uses the money for our own boys in France and our boys on the seas—our boys whose hard and terrible daily work is done so gayly; and death always with them—dropping from the air above them, ready to strike up at them from the ground, or from the water beneath them. They bear this for us, that our ideal of freedom may not be lost forever and that we shall not become the Prussian's servant. A good interest rate and safety for the money, and safety for our ideals, and for our liberty—that's what we get when we invest in the Liberty loan!

## WORDS AND DEEDS

(By WALT MASON.)

I may use language till I make Demosthenes look like a fake. I may rear up some nine feet high, and tell how I would bleed and die, if I were not so old and gray and crippled up and full of hny. I may denounce the foreign foe and tell how gladly I would go to wield a shotgun in the scrap and shoot the Kaiser off the map; but if I think more of my wad than of my country and my God, the things I say won't cut much grass; my words are merely sounding brass. Our Uncle Sam is needing men; he's needing rhino by the ton; he can't conduct a high-class scrap without a lot of dough on tap. To raise the dust he asks all lads to lend him all their surplus funds, to buy his bonds—security the safest ever man will see. And if I do not gambol up, as gay and frisky as a pup, and buy the bonds till I go broke, my loyal spleen are merely smoke. Oh, boys, most any tin-horn skate can work his jawbones and orate; most any lick can chew the rag and say nice things about the flag; but when we come right down to tacks, the patriot who's smooth as wax is he who comes, an ardent soul, for Liberty bonds to blow his roll.

**They Bayoneted the Wounded.**

A returned Canadian officer, in telling of an engagement in which he had taken part said: "We retook the trench from which we had been driven and found the Huns had bayoneted all our wounded when they had to get out." Those are the fellows your boy has to fight over there. Give him your whole-hearted support! Buy bonds!

**Grit Your Teeth and Buy a Bond.**

Casualty lists are being printed in the papers and occasionally we see pictures of our wounded at the hospitals in France. War is being brought home to us in the middle West. We know now that Americans are fighting over there and this third Liberty loan should find us more willing to than ever before, and more eager, to contribute our share toward defeating the Kaiser.

Buying Liberty bonds is now as much our duty as it is their duty to grit their teeth and beat the Hun.

## WHERE FARMING IS PROFITABLE

The Future of Great Possibilities.

Some idea of the great wealth that the Western Canada farmer had in view a few years ago is now being realized. The amount received from the sale of wheat, oats, barley, flax and rye in 1917 was \$270,000,000, while the sales of live stock at Winnipeg alone netted \$40,000,000 additional. Of this sum hogs alone gave over eleven million dollars. The increases at Calgary and Edmonton were over 6 1/2 million dollars.

This money, so easily earned, is being spent in improvements in farm property, purchasing additional land, buying tractors, automobiles, and improving home conditions, providing electric light, steam heat, new furniture, pianos, buying Victory bonds, paying up old debts, etc.

Over five hundred tractors were sold in Southern Alberta in 1917. One implement agent reports that the increase in his business in 1917, over that of 1916, was equal to the total business in 1915. It is the same story all over the country. And it is not this evidence alone which proves the advancement and growth of the three prairie provinces, but the large increase in the number of settlers; the improvement in the extent of the cultivated areas and agricultural production; the increase in value of which over 1916 was \$77,000,000.

This wonderful progress that has been made in agriculture in Western Canada is but the beginning which marks the future of the greatest agricultural country on the continent, showing a future of great possibilities. There are millions of acres yet untitled, and of land as good as any of that which is now giving its owners a return of from twenty to thirty dollars an acre, figures that in many cases represent the cost of the land, with all cultivation costs included. It is true that the cost of production has increased during the past few years, but the price of the product has also increased to a figure which leaves a large balance to the credit of the producer.

The following table shows how this works out.

	1913	1917
FARM NEEDS.	Price	Price

Percentage increases are shown too in another way, lending to the same conclusion, from consultation of the Department of Labor's review of prices. Taking 100 as the index number of normal production in the decade from 1890 to 1900, the increases in prices of farm products have slightly outdistanced the increases in his needs.

## FRECKLES

Now Is the Time to Get Rid of These Ugly Spots

There's no longer the slightest need of feeling ashamed of your freckles, as the prescription—oithine—double strength—is guaranteed to remove these homely spots. Simply get an ounce of oithine—double strength—from your druggist, and apply a little of it night and morning and you should soon see that even the worst freckles have begun to disappear, while the lighter ones have vanished entirely. It is seldom that more than one ounce is needed to completely clear the skin and gain a beautiful clear complexion.

Be sure to ask for the double strength oithine, as this is sold under guarantee of money back if it fails to remove freckles.—Adv.

## Win the War by Preparing the Land Sowing the Seed and Producing Bigger Crops

Work in Joint Effort the Soil of the United States and Canada  
CO-OPERATIVE FARMING IN MAN POWER NECESSARY  
TO WIN THE BATTLE FOR LIBERTY

The Food Controllers of the United States and Canada are asking for greater food production. Scarcely 100,000,000 bushels of wheat are available to be sent to the allies overseas before the crop harvest. Upon the efforts of the United States and Canada rests the burden of supply.

Every Available Tillable Acre Must Contribute; Every Available Farmer and Farm Hand Must Assist

Western Canada has an enormous acreage to be seeded, but man power is short, and an appeal to the United States allies is for more men for seedling operation.

Canada's Wheat Production Last Year was 225,000,000 Bushels; the Demand From Canada Alone for 1918 is 400,000,000 Bushels

To secure this she must have assistance. She has the land but needs the men. The Government of the United States wants every man who can effectively help, to do farm work this year. It wants the land in the United States developed first of course; but it also wants to help Canada. Whenever we find a man we can spare to Canada's fields after ours are supplied, we want to direct him there.

Apply to our Employment Service, and we will tell you where you can best serve the combined interests.

Western Canada's help will be required not later than May 5th. Wages to competent help, \$50.00 a month and up, board and lodging.

Those who respond to this appeal will get a warm welcome, good wages, good board and find comfortable homes. They will get a rate of one cent a mile from Canadian boundary points to destination and return.

# What Does "War Time" Mean To You

Are you complaining because "war time" means coal shortage; less sugar in your coffee; bad business; less money than you think you ought to make?

What about the boys who are fighting for you in France?

For you—a little economy and deprivation. For them the trenches; the pitiless storms of rain and sleet; the ceaseless deafening bombardment of the guns; hunger, cold and fever; wounds and death.

That you may dwell in peace, plenty, and security, they sacrifice everything, give everything, brave everything, and face a nameless grave with a smile and a song.

What are you doing, or giving, or sacrificing for them?

is your opportunity to prove the patriotism that is in your heart and on your lips.

Your opportunity to show yourself worthy of the heroism, the devotion, the self-renunciation of your soldiers and sailors.

Your opportunity to share, in some small degree, the sufferings of those who stand ready to make the supreme sacrifice for you.

All you can do is little enough. You simply lend your money. Do it, and be glad that you can do so much and sorry you can do no more.
